

## Case Study

# Joined-up working with improved connectivity

### The Challenge:

Community Links needed a supplier that could upgrade their infrastructure across their numerous sites and address their connectivity issues.

### Client Profile:

Community Links is an award-winning mental health charity pioneering a wide range of life-changing mental health and wellbeing services throughout the Yorkshire and Humber region. They offer support for people with a wide range of mental health issues including anxiety and depression, psychosis, alcohol and substance misuse and personality disorder.

- Award-winning mental health charity
- 15-20 sites

## The Solution:

razorblue looked at how Community Links worked and proposed a package of solutions. Their connectivity was replaced to be more solid and reliable, with applications hosted centrally in the Cloud and presented to certain users by Citrix. razorblue also introduced Skype for Business as a communications platform.

## The Result:

Community Links now have solid connectivity across all sites, plus a joined up way of working for all Community Links staff.

“razorblue have transformed the way we work with innovative solutions. Not only did they resolve our connectivity issues, we now communicate with each other much more effectively across our sites.”
